Macro + iFVG + Liquidity [HERMAN]

This premium all-in-one tool is designed for advanced scalpers and macro-timeframe traders who seek confluence-based precision. It combines powerful components into a single indicator:

Key Features:

Macro Time Windows Detection

Automatically identifies key institutional time ranges (e.g., 00:50–01:10, 15:50–16:10, etc.). These zones are statistically proven to offer high-probability moves due to algorithmic activity.

✓ Auto-labeling and visual lines

Fair Value Gaps (FVG) & iFVG

✓ FVGs

✓ iFVGs

✓ Minimum size filter

✓ Separate control over background, borders, and labels

✓ Option to show only gaps formed within macro times

Invite-only script ?

Only users approved by the author can access this script. You'll need to request and get permission to use it. This is typically granted after payment. For more details, follow the author's instructions below or contact [helmans13](#) directly.

Note that this private, invite-only script has not been reviewed by script moderators, and its compliance with [House Rules](#) is undetermined. TradingView does NOT recommend paying for or using a script unless you fully trust its author and understand how it works. You may also find free, open-source alternatives in our [community scripts](#).
